

# LW Series Light Boxes

LW Series Lamp boxes are designed to indicate visual status from ON/OFF relay or solid state drivers, Programmable Logic Controllers (PLCs), or remote Annunciator logic controllers.

This series is a cost effective and reliable solution to monitor the process status and is maintenance-free with 5, 9, 10, 15, or 25 windows . Each window is equipped with bright LED backlighting. The aluminum encasing allows for the best available heat dissipation ability, and at the same time affords a luxury appearance with a maximum installed depth of only 68mm.

## System Features:

- Combines multiple pilot lights into a single matrix
- Integrated Design
- 5, 9, 10, 15 or 25 windows per unit
- Cabinet Size: 96x96mm, 72x144mm, 144x144mm
- Installed Depth: 68mm
- Window Size: 22x22mm, 22x45mm
- Signal Voltage: 12V, 24V, 48V, 110V, 220V (DC or AC)
- Flush Mounted
- Illumination: Long life LEDs
- 4 Different Colors of LEDs (White, Red, Yellow, and Green)
- Alarm Text: Film Legends
- Maintenance Free
- High Reliability, Low Cost

Model Number	Cabinet Size (mm)
L5W-72	72x144mm
L9W-96	96x96mm
L10W-72	72x144mm
L10W-144	144x144mm
L15W-144	96x144mm
L25W-144	144x144mm
